

Banco Davivienda S.A. informs the market that it has signed with the International Finance Corporation (IFC) a subscription agreement for Ordinary Biodiversity Bonds, which issue will be placed in the Second Market for an amount of COP \$210,550,000,000.

The proceeds from the placement of the Ordinary Biodiversity Bonds will be used one hundred percent (100%) to finance or refinance, either in part or in full, companies, assets, activities or projects that generate direct impacts or co-benefits that contribute to the achievement of objectives focused on biodiversity, as well as positive results in nature, with respect to: (i) the conservation and use of biodiversity, (ii) sustainable agricultural development, (iii) sustainable water management, (iv) sustainable production and circular economy, and (v) sustainable energy.

The Ordinary Biodiversity Bonds will be issued for a term of four years.
